

ABOUT SAPIO ANALYTICS

We at Sapiro intend to IMPACT-IMPROVE-INFLUENCE. Our team is spread across India, UK, and Silicon Valley focused on creating high-end data-based algorithms powered by AI, on the path to becoming the first purely artificially intelligent policymaking system in India and probably the world. Sapiro is on its path to becoming the go-to product for any government body to make decisions, the go-to product that all stakeholders (government representatives, citizens, data experts) would want the government to use before making decisions.
