

## **ABOUT SAPIO ANALYTICS**

We at Sapio intend to IMPACT-IMPROVE-INFLUENCE. Our team is spread across India, UK, and Silicon Valley focused on creating high-end data-based algorithms powered by AI, on the path to becoming the first purely artificially intelligent policymaking system in India and probably the world. Sapio is on its path to becoming the go-to product for any government body to make decisions, the go-to product that all stakeholders (government representatives, citizens, data experts) would want the government to use before making decisions.

### **Full Stack Developer**

We are looking for a highly skilled computer programmer who is comfortable with both front and back end programming. Full stack developers are responsible for developing and designing front end web architecture, ensuring the responsiveness of applications, and working alongside graphic designers for web design features, among other duties.

Full stack developers will be required to see out a project from conception to final product, requiring good organizational skills and attention to detail.

- Work with development teams and product managers to ideate software solutions
- Test software to ensure responsiveness and efficiency
- Troubleshoot, debug and upgrade software
- Create security and data protection settings
- Build features and applications with a mobile responsive design
- Work with data scientists and analysts to improve software
- Developing front end website architecture.
- Designing user interactions on web pages.
- Developing back-end website applications.
- Creating servers and databases for functionality.
- Ensuring cross-platform optimization for mobile phones.
- Ensuring responsiveness of applications.
- Seeing through a project from conception to finished product.
- Designing and developing APIs.
- Meeting both technical and consumer needs.
- Degree in computer science.
- Strong organizational and project management skills.

**Requirements:**

- Proficiency with fundamental front-end languages such as React Js,HTML, CSS, and JavaScript
- Familiarity with JavaScript frameworks such as Angular JS, React,.
- Proficiency with server-side languages such as Python, Django, and .Net.
- Familiarity with database technology such as MySQL, and MongoDB.
- Excellent verbal communication skills.
- Good problem-solving skills.
- Attention to detail.

**Salary:** As Per Industry Standard.
