

DATA SCIENTIST ROLE @NEENOPAL

Read on to find out if you are a fit !!

***Only 2021 & 2022 Bachelor Graduates should Apply**

Job Description

NeenOpal is looking for exceptional talent to join our rapidly growing global team. People are our biggest perk! Our transparent and collaborative culture offers a chance to work with some of the brightest minds in the industry. If you are someone who thrives on ambiguity, is a problem solver and yet deliver value to clients, please apply for the position

Position Description

We are looking for someone who would be responsible for analyzing data and providing business insights.

As a Data Scientist your responsibilities will include understanding the business problem and experimenting with different modelling architectures to create the best possible setup from model performance as well as computational performance. To do this job successfully, you need exceptional skills in Machine Learning and Programming. Your ultimate goal will be to find the best data-based solution for the problem at hand.

Moreover, you are expected to learn fast and deliver quickly in a fast-paced startup environment.

We are looking **ONLY FOR SELF DRIVEN INDIVIDUALS** with a desire to excel in Data Science Domain.

- Understanding business objectives and developing models that help to achieve them, along with metrics to track their progress
- Develop and maintain robust data processing pipelines and reproducible modeling pipelines
- Build mathematical models to solve various problems ranging from Time Series forecasting to Neural Networks and ensure seamless deployment in production pipelines.
- Analyze experimental results, iterate and refine models to create significant business impact
- Follow strict coding standards and other software engineering best practices

Required Skills

- Proven experience as a Data Scientist or similar role
- Strong SQL, R/Python Skills
- Should have familiarity with Machine Learning Models and fundamentals in Forecasting and Optimization Techniques
- Should have strong mathematical background & analytical bent of mind
- Strong Problem-Solving Ability
- Ability to communicate well in a highly collaborative team environment, consisting of both technical and non-technical personnel
- Reliable self-starter that is capable of working with a high degree of autonomy
- Past experience of participating in Hackathons/Competition

Benefits

NeenOpal is a global management consulting firm with a unique and specialized focus on Data Science. We provide services across the whole value chain of an organization - Digital Strategy, Sales & Marketing, Supply Chain & Logistics as well as Finance. With offices across Bangalore and New York - the company works with some of the leading enterprises as well as growth-stage startup clients.
