

### About us

Glosity.club is an early-stage startup that is on a mission to enable ~100 million early career professionals to get equal access to growth opportunities! We are on a mission of providing equal access to economic opportunity, exposure and information to every member of the student community irrespective of their college, economic background etc

We are looking for individuals with high ownership and the ability to work in a fast-paced environment. You will become part of a team that has a direct impact on business decisions and help us uncover avenues and insights about our users. We are hiring someone who is having a learning attitude, tech enthusiast, has problem-solving skills, critical thinking ability and good communication skills.

### Role: Product Design and Research [UI/UX] Intern

#### Responsibilities:

- Conduct research on user needs and preferences to inform the design of new products
- Develop user personas, user stories, and other design artifacts to guide the design process
- Collaborate with cross-functional teams to ensure that product designs align with business goals and customer needs
- Design intuitive and visually appealing user interfaces for web and mobile applications
- Develop wireframes, prototypes, and mockups to communicate design concepts to stakeholders
- Conduct user testing and iterate on designs based on user feedback
- Create design specifications, style guides, and other documentation to guide the development process

#### Requirements:

- Proven experience in UI/UX design for web and mobile applications
- Strong knowledge of design tools such as Sketch, Figma, or Adobe Creative Suite
- Ability to work in a fast-paced environment and handle multiple projects simultaneously
- Excellent written and verbal communication skills
- Familiarity with front-end development technologies such as HTML, CSS, and JavaScript is a plus
