

YOUR HEALTH COMPANION

Company

Profile

**A UNIT OF OMNIHEALTHMATTERS
TECHNOLOGIES PVT. LTD.**

WHO ARE WE?

We are a healthtech startup who aims to revolutionize the diagnostic market, by ensuring that people have utmost autonomy to make unbiased choices. By leveraging the power of Technology and Artificial Intelligence, we are determined to make healthcare seamless and efficient.

We are also actively working to create awareness among people when it comes to the importance of diagnostics and maintaining a healthy lifestyle. Apart from phlebotomy management and home blood sample collection, we are also involved in healthcare coordination and In-House palliative care.

OUR MISSION:

TECH-ENHANCED HEALTHCARE

Nirogh simplifies healthcare with advanced technology, emphasizing convenience and accuracy.

DEDICATED COORDINATION

Our healthcare coordinators are dedicated to providing you with the best healthcare experience.

ENHANCED HOME CARE

We make healthcare accessible and comfortable at home, prioritizing your well-being.

OUR SERVICES:

HOME SAMPLE COLLECTION

Our trained phlebotomists arrive at our customers convenience to their doorstep. Once they draw the blood sample, it is then delivered directly in the diagnostic center selected by the customer.

HEALTHCARE COORDINATION

Hospital visits can be a headache. To ease the burden of people, we provide dedicated healthcare coordinators who help you ease our customers work in the hospital by assisting them and helping them out throughout the process and ensuring their hospital experience is smooth.

IN - HOUSE CARE

There are times when people do need to get treated at the comfort of their home. Our team of nurses help you out in these tough times, by assisting you in the place you are most comfortable.

RECOGNITION:

We have been recognized by Startup India as well as Startup Odisha and have been given the status of a Social Impact Creating startup.
