

JOB DESCRIPTION

About us: -

Fundsresearch is a comprehensive financial Research and application platform designed to empower individuals to make informed investment decisions by generating financial & Business reports and data driven model. Our Internship provides users with access to a widerange of resources, including market analysis, investment research tools, Financial content, and technical support.

Whether you're a novice investor or a seasoned financial professional, Fundsresearch equips you with the knowledge and tools you need to navigate the complexities of the financial markets confidently.

Roles Offered: -

Business Development Intern (**Finance**)

Your responsibilities will include conducting targeted outreach, and explaining the specific benefits and requirements of the chosen analyst position

Job Responsibilities:-

• **MODULE 1 – Business Module**

- Your primary role will be to promote and onboard potential business for Fundsresearch Internship Program (FRIP) and its mission among students, and relevant campus groups.
- To successfully bring **minimum 5-7 entries** for the Fundsresearch program from students and potential Investor base.
- To effectively communicate the program's objectives, benefits, and requirements to prospective participants.
- Build and maintain relationships with student groups, academic departments, and campus organizations to foster collaboration and support for Fundsresearch.
- Gather feedback from students, and campus partners to help improve Funds Research's offerings and user experience.

• MODULE 2 – Financial Module

- Assist in conducting research on various financial markets, including stocks, bonds, ETFs, and mutual funds.
- Analyze market trends, economic indicators, and company financials to identify investment opportunities and risks.
- Assist in the development of financial models and projections to assess business performance and evaluate investment opportunities.
- Preparing Trading reports on market trends, trade statistics, and candlestick patterns by analyzing data and using comprehensive tools.
- Gathering and assessing securities/equity data including industry-related stocks and bonds.
- Analyzing company financial reports to determine the market performance of existing securities by assessing balance sheets, P&L accounts, and financial statements.

Perks & Benefits: -

- This internship opportunity spans **45- 60 days** with the potential for extension based on performance.
- Interns will **work from home**, dedicating **1-2 hours** per day.
- With a stipend from **3,000 upto 10,000 Rs***, as per performance on the **Business Target & Financial Module work**, participants can expect valuable experience and skill development.
- Exceptional interns may receive a **Team Leader position** with a stipend range of **40,000 – 60,000 Rs.**
- Also, a **Pre-Placement Offer (PPO) of 6 – 7 LPA*** depending on performance.
