

Job Title: Software Developer

Company: InfinityMinds Consulting Pvt Ltd

Job Location: Bhubaneswar

About InfinityMinds:

InfinityMinds Consulting is a premier IT service provider specializing in delivering cutting-edge technology solutions exclusively tailored for the property and casualty insurance sector. With a profound understanding of the industry's unique challenges and opportunities, we offer comprehensive consulting services in Duck Creek technology product suite for both on-demand and on-prem platforms.

Job Description:

We are seeking enthusiastic and talented freshers to join our dynamic software development team as Software Developer at InfinityMinds Consulting. As a Software Developer, you will play a crucial role in designing, coding, testing, and debugging software applications. You will have the opportunity to work on cutting-edge projects, learn from experienced professionals, and contribute to the development of innovative software solutions.

Key Responsibilities:

- 1. Software Development:* Collaborate with senior developers and team members to design, develop, and implement software solutions that meet client requirements and project objectives.
- 2. Coding and Debugging:* Write well-structured, efficient, and maintainable code while actively participating in code reviews and debugging efforts to identify and resolve issues.
- 3. Problem Solving:* Analyze user requirements and technical specifications to develop solutions that address complex software challenges.
- 4. Testing and Quality Assurance:* Create and execute test plans to ensure the quality, reliability, and performance of developed software. Identify and fix bugs and errors as they arise.
- 5. Documentation:* Document code changes, processes, and procedures for future reference. Maintain clear and concise technical documentation.
- 6. Continuous Learning:* Stay updated with the latest industry trends, technologies, and best practices to enhance your skills and contribute to the growth of the team.
- 7. Collaboration:* Work closely with cross-functional teams, including designers, product managers, and quality assurance professionals, to ensure seamless integration of software components.

Qualifications:

- Bachelor's/Master's degree in Computer Science, Software Engineering, or a related field.
- Proficiency in one or more programming languages such as .Net, Java, C++, C.
- Familiarity with software development methodologies and practices.
- Basic understanding of data structures, algorithms, and object-oriented programming concepts.
- Excellent communication and teamwork skills.
- Strong analytical and problem-solving abilities.
- Prior experience with internships, personal projects, or coding competitions is a plus.

Notes:

- When a candidate joins InfinityMinds, they will need to sign an 18-months employment agreement. There is a bond breakage amount if the employee chooses to leave InfinityMinds during this period. This is because InfinityMinds invests significantly in training employees in the technology they will work on.
- Your salary will be between **₹1.8 and ₹2.4 lakhs** per annum, with a bonus component based on your performance.
- The first 3 months will be a probation period. Upon successful completion of this period, you will be converted to full-time.
- Every year, your salary will be revised.
- Comprehensive training and mentorship to enhance technical skills.
- Opportunity to work on diverse and challenging projects.
- Career growth and advancement opportunities within the company.
- Access to cutting-edge tools and technologies.
- The first-round interview will include a written test covering **C++, analytical, and logical** questions. Based on your results in the first round, we will call you for the second round.

If you are a motivated and eager learner who is passionate about software development, this is an excellent opportunity to kick-start your career at InfinityMinds Consulting Private Limited. To apply, please send your resume to **hr@infinitymindsconsulting.com**
