

Career Opportunities With KriSemi Design Technologies.

Specialized in ASIC design with mixed signal IP, firmware solutions for large telecommunication systems, photonic Integrated circuits and FPGA solutions.

ANALOG DESIGN & LAYOUT | RF DESIGN | PHYSICAL DESIGN | RTL AND VERIFICATION | EMBEDDED SYSTEMS

KriSemi Design Technologies Private Limited is a leading service provider to semiconductor, EDA companies in Physical Design, Physical Verification, Analog and Mixed Signal Design and Embedded systems. We are passionate and dedicated experience professionals in semiconductor industry with a thorough insight on VLSI challenges. Most of our focus & energies are channelized on trending technologies with an effective oversight on future transformations.

Vision: Our vision is that KriSemi design tech, will be nationally recognized as the best semiconductor services organization that accomplish the ultimate balance between outstanding client service, a focus on family and the financial success of the firm. This will be accomplished by creating a culture of pride and passion that will enable us to continue attracting and retaining the best and brightest professionals, who will be rewarded, recognized and respected for their contributions to the firm that is founded on shared core values.

Mission: Our mission is to deliver high-quality technology solutions that enable companies to meet their business goals more effectively. KriSemi Tech is committed to maintaining customer satisfaction, trust and integrity by providing the highest quality of service in semiconductor industry.

Following are the work areas, KriSemi Design Tech. actively engage in

- RTL Design and verification.
- Analog and mixed signal Design.
- Physical Design.
- DFT.
- Embedded systems.
- Software solutions.
- Turnkey projects.

KriSemi Tech is engaged with some of the leading semiconductor design companies and growing day by day.

We are hiring for the position of "Junior Software Engineer", where the selected candidates will work in our Software Development Team.

Employment Type: Initial 6 months - Contractual. After contract period based on performance evaluation, candidates will be provided full time opportunity with the company.

Payroll: 6 months contractual. Thereafter on company's payroll.

Number of vacancies: Limited (Please note that any hiring will strictly depend on the quality of the candidates fulfilling our recruitment parameters.)
