About alliant

alliantgroup is a professional services firm that provides tax consulting and compliance services to businesses in the United States. The company was founded in 2002 and is headquartered in Houston, Texas. alliantgroup services are focused on helping businesses claim tax credits and incentives that they are entitled to under various federal and state programs. These credits and incentives are designed to encourage businesses to invest in certain types of activities, such as research and development, energy efficiency, and hiring employees from certain disadvantaged groups. alliantgroup services include helping businesses identify and claim these credits and incentives, as well as providing guidance on compliance with the relevant regulations.

alliantgroup is headquartered in Houston, Texas with additional offices located in Austin, Boston, Chicago, Indianapolis, New York, Irvine, Sacramento, Washington, D.C.; and Bristol and London in the U.K.

alliantTalent Pvt. Ltd:

alliantgroup started its operations in India in the year 2020 with a world-class office in Hyderabad to provide Tax, Advisory, Audit and Accounting services. alliantgroup India Talent comprises a team of skilled professionals who address the most pressing needs of U.S CPA Firms. We work with the best talent and ensure our clients get top quality services they need. We are currently a family of 1000+ employees. Our people and culture set us apart as a firm, and our team includes professionals from a diverse array of fields, including business, engineering, software development, law, and accounting.

What you'll be doing:

Associate will be a core team member whose key responsibility is to analyze client data and deliver end-to-end R&D study which includes all the credit calculations and insightful reports that meet the quality standards of alliantgroup. He / She will be part of the delivery team and will be focusing on building and sustaining core values.

What will be your responsibilities:

- Prepare client tax credit calculations based on the information provided by the client;
- Manage, organize, and analyze project information including job costing, timesheet data, ledger information, and expense detail;
- Draft reporting deliverables based on information gathered during the interview process and technical documents provided by clients;
- Perform effective secondary research on any given industry for our clientele;
- Upskill themselves and team members on current R&D credit practices; and
- Manage projects by building strong relationships with all stakeholders.

What are we looking for:

- Post-graduate in MBA (Finance);
- Preferred educational backgrounds in engineering, business administration, management, finance, economics, and life sciences;
- Knowledge of technical aspects of US R&D tax credit analysis;
- Proficiency with Microsoft Office Suite, including Excel, Word, PPT, and Outlook;
- Strong understanding of Advanced MS Excel to work on complex datasets;
- Excellent written, verbal, and presentation skills;
- Ability to analyze and understand unstructured project notes and possess good writing skills to prepare technical research reports;
- Ability to maintain confidentiality with company and client information;
- Strong client service, organization, and interpersonal skills;
- Ability to multitask and work in an open, collaborative, and fast-paced team environment;
- High sense of urgency with the ability to meet deadlines and changing priorities;
- Receptiveness to performance feedback within a team environment is essential; and
- Candidate must be willing to relocate to Hyderabad, TG;

What we offer:

At our organization, we foster an environment of continuous innovation and professional growth. We believe in empowering our team members to leverage their diverse expertise and drive organizational excellence to new heights. Our culture emphasizes early ownership and accountability, supported by comprehensive guidance to ensure both individual success and collective achievement.

We are committed to being a trusted partner to our clients while maintaining an exceptional workplace for our employees. Our comprehensive benefits package includes:

- **Healthcare Coverage:** Medical insurance for employees and their dependents
