

Designation: Software Developer

Company: Global AI Technologies

Since 2017, Global AI Technologies is a leading provider of artificial intelligence solutions that cater to various industries such as healthcare, finance, retail, and manufacturing. Our mission is to revolutionize these industries by developing innovative AI algorithms and software solutions that enhance efficiency and productivity. Our team consists of experts in the field who are dedicated to empowering our clients to achieve their goals.

Job Description:

We are seeking an enthusiastic and motivated individual to join our team as an **Software Developer**. As part of our enterprise-class software solution, you will receive comprehensive training on our advanced platform, enabling you to develop the skills required to excel in the role.

Key Responsibilities:

- Learn and master the Software platform (both in MAC and Windows environment) in training period.
- Act as a dedicated employee for our client projects, handling client queries, providing solutions, and ensuring client satisfaction.

- Collaborate closely with developers to implement solutions for clients based on their specific business needs.
- Work with cross-functional teams to help in the design, development, and enterprise-class software.
- Manage and track our projects, ensuring timely completion of tasks and quality service delivery.
- Work towards achieving individual and team goals, ensuring high levels of client satisfaction.
- You will be eligible for performance-based incentives, which will be calculated based on overall performance.
- The incentive structure will be discussed during the onboarding process and is an excellent opportunity to boost earnings.

Training & Development:

- Full training will be provided for 6 months on the AI, Cyber Security, Java, Python, SQL and DevOps etc. solution platform, covering all necessary functionalities. The training is designed to cater to both beginner and intermediate skill levels, offering a solid foundation in using the software.
- There will also be exposure to basic programming concepts, which is an additional advantage for the role.

Work Environment:

- Work from office – RMZ Millenia Business IT Park, Perungudi, Chennai
- Head Office – US & UK
- You will be guided and mentored by experienced professionals throughout your career journey in the company.

Compensation:

- **Salary:** 6.5 LPA (Lakhs Per Annum)
- Additional benefits, including statutory compliances such as Provident Fund (PF) and other country-specific statutory benefits, will be provided in accordance with local regulations.

Qualifications & Skills:

- A Bachelor's degree in any field, preferably in Computer Science, IT, ECE, EEE & MECH Engineering with 60% in overall academics is preferred – 2026 Batch.
- Strong interest in learning enterprise software and a passion for technology.
- Familiarity with basic programming languages is an added advantage.
- Excellent communication skills and the ability to work with clients and internal teams.
- Ability to work independently and as part of a team.

Additional Information:

- Statutory compliance, including Provident Fund (PF) and other local regulations, will be applied as per country norms.
- A comprehensive performance review will be conducted regularly, and career growth opportunities will be available based on your performance and contributions to the company.
- Provident Fund (PF) as per local government norms.
 - Health and insurance benefits (if applicable).
 - Performance appraisals and potential for salary increments based on performance.
