Orahi (Phonon Solutions Private Limited) is a technology-driven company that specializes in providing innovative mobility and IoT-based solutions, with a strong focus on school bus tracking and fleet management. Through its flagship product, Orahi, the company offers real-time tracking systems that enhance safety, transparency, and operational efficiency for school transportation.

By combining hardware, software, and data analytics, Orahi ensures secure commutes for students while enabling parents and schools to monitor routes, timings, and vehicle conditions through user-friendly mobile apps. The company continues to evolve in the smart mobility space, aiming to deliver scalable, intelligent transport solutions for institutions and businesses.

INNOVATION AND DEVELOPMENT

From services in IT, Life Science, Vehicles, Automation, Product Development, ITS systems for Public Transport and Energy Efficiency to network and system maintenance. Consat offers a wide range of advanced expertise. Our companies are focused on development-intensive and forward-looking industries where we can grow together with our customers.

Consat Engineering

Consat Telematics

Consat Sustainable Energy Systems

Consat Data

Consat Innovation Partner

Consat's journey began in 1986 and today has offices in Sweden, Norway, the Netherlands, Australia, Canada, India and Brazil. Together with our partners, we have carried out a number of projects that work for a better and brighter future. That is why we are incredibly proud and honored that so many choose Consat as their main provider of complex engineering services. CONSAT ORAHI is a Joint Venture between CONSAT ENGINEERING AB and Orahi India. Orahi is 10-year-old company in providing Platform as a Service (PaaS) for Internet of Things (IOT) businesses. This JV brings strengths of both the parent companies

CONSAT ORAHI is engaged with multiple European customers in Electrical Vehicle Engineering, EV charging Management, Smart Agriculture, Smart Homes and Smart healthcare segments.

In IOT space, everything is a device with communication capability, we connect with these devices and make them intelligent through our platform using Artificial Intelligence and Machine Learning.

Complete Software and Electronics Integration is currently integrating and testing the next generation of embedded software system towards new generations of cars. To support future platform updates there is now a need to add teams to strengthen the development effort to speed up the integration and to increase software quality.

Awards and recognitions:

- Helped Delhi Government to implement Odd-Even on our platform
- For the tenth year in a row, Consat has become one of Sweden's top 100 career companies
- We ended up in the top ten among the Engineering and IT Universities.
- Employer Branding Company of the Year 2019, CEO of the year, Presented by UNIVERSUM Awards, 2020
- Accredited by Government Institutions like CII, DIPP, and NASSCOM.
- Recognized by 'The Superbrands USA'

BENEFITS

At Consat Orahi, we know that great people make a great organization. We value our people and offer employees a broad range of benefits.

- A pleasant working environment with strong focus on flexibility and work-life balance
- Working with state-of-the-art technologies on development of premium brand cars
- A chance to boost up your career in a multi-national company
- Participation in a benefits program consisting of premium health insurance package, tea/ coffee, snacks, fresh fruit and lunch facility.
- Bonus programmes i.e., yearly bonus, employee awards
- Accommodation: This position offers accommodation facility for few days after joining based on candidate eligibility.

OUR PEOPLE AND CULTURE

Our diverse, equitable, and inclusive culture empowers our people to be who they are, contribute their unique perspectives, and make a difference individually and collectively. It enables us to leverage different ideas and perspectives, and bring more creativity and innovation to help solve our client most complex challenges. This makes Orahi one of the most rewarding places to work.

PROFESSIONAL DEVELOPMENT

From entry-level employees to senior leaders, we believe there's always room to learn. We offer opportunities to build new skills, take on leadership opportunities and connect and grow through

mentorship. From on-the job learning experiences to formal development programs, our professionals have a variety of opportunities to continue to grow throughout their career.

We are hiring for the following positions:

- ✓ **01. AI Intern (Tech Role)**
- ✓ **02. DevOps Intern (Tech Role)**
- ✓ **03. Frontend React Intern (Tech Role)**
- ✓ **04. Backend Python Intern (Tech Role)**
- ✓ **05. Quality Assurance (QA) Intern (Tech Role)**

Employment Type: Full time employment (WFO) – Internship and PPO conversion basis performance

Payroll: On roll

Growth Opportunities: This internship offers a pathway for growth within our company. With a duration of 6 months, your performance during this period will determine the possibility of transitioning into a full-time role.

Number of vacancies: Limited and separate position wise. However, hiring will strictly depend on the quality of the candidates fulfilling our recruitment parameters.

Job location: Gurgaon, Haryana (Work From Office)

Joining:

- The selected candidates have to join the internship immediately after the selection process gets over (by Nov'25).
- Leaves will be provided for semester exams based on prior intimation and approval.

CTC/Stipend:

During internship period: Stipend Amount: INR 15K/month.

CTC post conversion (PPO is based on individual performance) will be as follow:

- **For AI, DevOps, Frontend, Backend roles:** CTC post conversion will be INR 3.00 LPA - up to INR 5.00 LPA + Additional Perks and Benefits Worth INR 2.00 LPA.
- **For QA:** CTC post conversion will be INR 3.00 LPA - up to INR 4.20 LPA + Additional Perks and Benefits Worth INR 2.00 LPA.

Orahi India

International Tech Park Gurgaon, Near Sector 59, GB01 Village Behrampur, Gurgaon, Haryana-122101, INDIA.

Job Profile:**01. AI Intern (Tech Role):**

Are you passionate about shaping the future of AI? Join us as an AI Intern and contribute to high-impact projects that leverage the latest in Artificial Intelligence. This is a unique opportunity to gain practical experience with Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and AI Agents, while working alongside a dynamic and supportive team.

You'll apply your technical skills in Python, SQL, and TensorFlow to tackle real-world challenges, and help create intelligent systems that drive meaningful outcomes.

Job responsibilities:

- Collaborate with engineers to develop and fine-tune machine learning models using TensorFlow and other leading ML frameworks.
- Explore and implement LLM-powered architectures, including RAG pipelines and AI agents.
- Build and optimize data workflows using Python and PostgreSQL for data processing and management.
- Contribute to the design of scalable AI systems that deliver performance and efficiency.
- Work cross-functionally with product and engineering teams to integrate AI-driven features and insights into live systems.

Requirements:

- Strong programming skills in Python for data analysis and machine learning.
- Familiarity with SQL (preferably PostgreSQL) for data handling and transformation.
- Hands-on experience or academic projects involving TensorFlow and neural networks.
- Understanding of LLMs (e.g., GPT, BERT), RAG methodologies, and autonomous agents.
- Solid problem-solving skills and a curiosity-driven mindset.

Bonus Points For:

- ✓ Experience with LangChain, OpenAI APIs, or similar LLM development tools.
- ✓ Prior internships or projects in AI/ML, natural language processing, or related fields.
- ✓ A team-first attitude with the ability to thrive in both collaborative and self-driven settings.

Why Join Us:

- Learn from experienced AI practitioners through direct mentorship.
- Work on real-world problems with immediate impact and relevance.
- Be part of a culture that values innovation, creativity, and continuous learning.
- Potential pathway to a full-time role based on performance and mutual fit.

02. DevOps and Cloud Automation Intern

Are you passionate about revolutionizing software development and deployment processes? Do you thrive in a dynamic, collaborative environment? If so, we have an exciting opportunity for you to join our DevOps team as a DevOps and Cloud Automation Intern. In this role, you will play a key part in transforming our software development lifecycle using cutting-edge technologies like Kubernetes and IoT. Get ready to immerse yourself in the world of DevOps and contribute to shaping the future of our technology landscape.

Job responsibilities:

- **Automate and Streamline Development Processes:** Collaborate with our DevOps team to automate and streamline software development and deployment pipelines using industry-leading tools such as Jenkins, GitLab, and GitHub.
- **CI/CD Pipeline Mastery:** Assist in the setup and maintenance of robust Continuous Integration/Continuous Deployment (CI/CD) pipelines, leveraging technologies like Terraform, AWS CloudFormation, or Ansible to automate software testing and delivery.
- **Infrastructure as Code (IaC) Expertise:** Learn and contribute to Infrastructure as Code (IaC) practices, playing a pivotal role in provisioning and managing cloud-based infrastructure to enhance efficiency.
- **Containerization Enthusiast:** Assist in containerization efforts by mastering technologies such as Docker and Kubernetes, contributing to the evolution of our deployment strategies.
- **Monitoring and Troubleshooting Pro:** Support the monitoring and logging of applications and infrastructure to proactively detect and troubleshoot issues, ensuring seamless operation.
- **Security-Focused DevOps:** Contribute to security practices by implementing and maintaining security measures in DevOps processes, aligning with industry standards such as ISO 27001 and SOC 2.
- **Cross-Functional Collaboration:** Collaborate with cross-functional teams to enhance collaboration and communication between development and operations, fostering a culture of innovation and efficiency.
- **Release Management Excellence:** Participate in release management activities to guarantee smooth software releases and updates, playing a crucial role in delivering high-quality software to our users.
- **Best Practices Advocate:** Learn and apply best practices in provisioning and configuration management, continually seeking ways to optimize and enhance our DevOps processes.

Requirements:

- Passion for DevOps, automation, and cloud technologies.
- Familiarity with Kubernetes, Docker, and IoT concepts is a plus.
- Strong collaboration and communication skills.
- Eagerness to learn and adapt in a fast-paced environment.
- Knowledge of security standards and practices is advantageous.

03. Quality Assurance (QA) Intern (Tech Role):

Quality Assurance (QA) engineer to develop and execute exploratory and automated tests to ensure product quality. QA engineer responsibilities include designing and implementing tests, debugging and defining corrective actions. You will also review system requirements and track quality assurance metrics. The QA technician role plays an important part in our company's product development process. Our ideal candidate will be responsible for conducting tests before product launches to ensure software runs smoothly and meets client needs, while being cost-effective. If you hold an engineering background and enjoy providing end-to-end solutions to software quality problems, we'd like to meet you. Ultimately, you should monitor all stages of software development to identify and resolve system malfunctions to meet quality standards.

Job responsibilities:

- Review requirements, specifications and technical design documents to provide timely and meaningful feedback (SRS/BRD)
- Create detailed, comprehensive and well-structured test plans and test cases
- Estimate, prioritize, plan and coordinate testing activities
- Design, develop and execute automation scripts using open source tools. (Java/Python etc)
- Identify, record, document thoroughly and track bugs (Bug Cycle)
- Perform thorough regression testing when bugs are resolved
- Develop and apply testing processes for new and existing products to meet client needs
- Liaise with internal teams (e.g. developers and product managers) to identify system requirements
- Monitor debugging process results
- Track quality assurance metrics, like defect densities and open defect counts
- Stay up-to-date with new testing tools and test strategies
- Basic SQL and DBMS
- API testing

Requirements:

- Ability to work in a fast-paced environment
- Strong problem-solving skills
- Good communication and teamwork skills

04. Frontend React Intern (Tech Role)

We are seeking a highly motivated and passionate React intern to join our Technology team. The successful candidate will work on various projects and tasks that require the use of React.js framework. This is a unique opportunity for an individual to gain hands-on experience and to contribute to the success of the company.

Job responsibilities:

- Assist in the development of React-based user interfaces
- Write clean, maintainable, and efficient code
- Debugging and fixing existing code
- Collaborate with other team members to determine the requirements of new software applications
- Participate in code reviews to ensure high quality standards are met
- Conduct research and testing to improve existing software systems
- Participate in the design and development of new software systems

Requirements:

- Strong proficiency in React.js framework
- Knowledge of HTML, CSS, JavaScript, and other web development technologies
- Ability to work in a fast-paced environment
- Strong problem-solving skills
- Good communication and teamwork skills

We offer:

- A dynamic and challenging work environment
- Opportunity to work on real projects and make a meaningful impact
- A supportive team of experienced professionals
- Access to training and development opportunities

05. Backend Python Intern (Tech Role)

We are seeking a highly motivated and passionate Python intern to join our Technology team. The successful candidate will work on various projects and tasks that require the use of Python programming language. This is a unique opportunity for an individual to gain hands-on experience and to contribute to the success of the company.

Job responsibilities:

- Assist in the development of Python-based software applications
- Write clean, maintainable, and efficient code
- Debugging and fixing existing code
- Collaborate with other team members to determine the requirements of new software applications
- Participate in code reviews to ensure high quality standards are met
- Conduct research and testing to improve existing software systems
- Participate in the design and development of new software systems

Requirements:

- Strong proficiency in Python programming language
- Knowledge of software development methodologies and practices
- Ability to work in a fast-paced environment
- Strong problem-solving skills
- Good communication and teamwork skills

We offer:

- A dynamic and challenging work environment
- Opportunity to work on real projects and make a meaningful impact
- A supportive team of experienced professionals
- Access to training and development opportunities
