

IBM SkillsBuild GenAI Boot Camp 2026

Generative AI : From Prompt to Production

2 Weeks | Online | Live Interactive Sessions | IBM Certifications

Join Generative AI: From Prompt to Production, a free 2-week online boot camp featuring interactive live sessions designed to take you from prompt engineering to building real-world, production-ready AI systems. Explore agentic workflows, LLM architecture, real-time debugging, and ethical AI practices while gaining hands-on experience with cutting-edge tools.

Don't miss this opportunity to upskill in the most in-demand advanced AI skills and stay ahead of the curve!

Student Benefits:

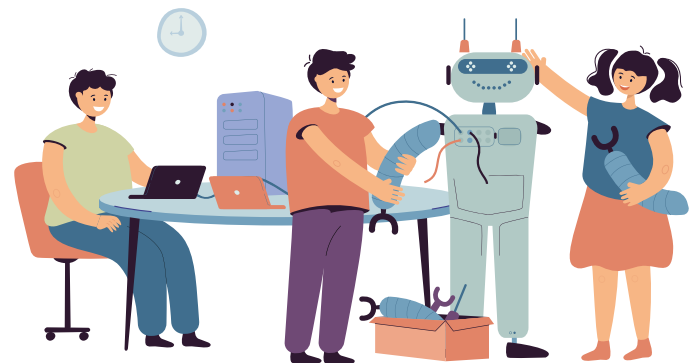

- Real-World Projects & Hands-On Learning
- IBM Badges upon completing the course
- Live Masterclasses by Subject Experts
- Early Access to Upcoming IBM Programs

Eligibility Criteria:

- All students (All Branches) are eligible to attend the boot camp
- Students can participate individually or as a team of up to 4 members

Key Themes Covered in Boot Camp:

- Agentic Software Engineering
- Autonomous Operations & Agents
- Advanced Prompt Engineering
- CLI & Terminal Integration
- Scalable AI Architecture
- AI Ethics & Secure Governance

Complete your registration on or before February 20, 2026.

Starting date: 23rd February 2026 to 08th March 2026

4 Live Master Classes by Subject Expert

Come, let's learn and build India's AI future together.
