

Job Title: Software Intern

Location: Bhubaneshwar, India

Company: KFin Technologies – www.kfintech.com

About Us: KFin Technologies is a leading provider of comprehensive solutions for the financial services industry. We are committed to innovation and excellence, and we are looking for a talented Software Intern to join our dynamic team.

Job Description: We are seeking a motivated and enthusiastic Software Intern to assist our development team. This internship offers an excellent opportunity to gain hands-on experience in software development, web development, and problem-solving within a collaborative and innovative environment.

Key Responsibilities

- ☐ Build and maintain data pipelines (ETL processes) to collect, transform, and load data
- ☐ Work with large datasets using Python, SQL, and Spark
- ☐ Clean, process, and validate raw data for analytics and reporting
- ☐ Develop scalable solutions on cloud platforms (AWS/GCP/Azure)
- ☐ Collaborate with analysts, data scientists, and product teams
- ☐ Monitor data workflows and fix issues in pipelines
- ☐ Ensure data quality and reliability.

Required Skills

- ☐ Python (must-have) – for data processing and scripting
- ☐ SQL (strong knowledge) – for querying and data manipulation
- ☐ Basic understanding of Apache Spark / PySpark
- ☐ Knowledge of ETL concepts (Extract, Transform, Load)
- ☐ Familiarity with any cloud platform (AWS / GCP / Azure)
- ☐ Understanding of databases (relational and NoSQL basics)

Good to Have (Not Mandatory)

- ☐ Hands-on project experience with data pipelines
- ☐ Exposure to tools like Airflow, Kafka, or similar
- ☐ Knowledge of data warehousing concepts
- ☐ Git or any version control system experience

Eligibility Criteria

- ☐ Bachelor's degree in Computer Science, IT, ECE, ETC, EE, Data Science
- ☐ Strong analytical and problem-solving skill.

What We Offer:

- ☐ Hands-on experience with real-world projects.
- ☐ Mentorship from experienced developers.
- ☐ A collaborative and supportive work environment.
- ☐ Opportunities for professional growth and development.
